DETAILED ACTION

Response to Amendment

1. This action is responsive to the Amendments filed 01 July 2005. Claims 21, 26, 27, 29, 31 and 32 are pending. Claims 21, 26 and 29 have been amended. Claims 22-25, 28 and 30 have been cancelled.

Allowable Subject Matter

2. Claims 21, 26, 27, 29, 31 and 32 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claim 21 is allowable over the prior art because a system for measuring an opacity value for an exhaust emission plume having a source of electromagnetic radiation that emits electromagnetic radiation, wherein the first wavelength region is substantially in the infrared region, the second wavelength region is substantially in the visible region, and the third wavelength region is substantially in the ultra-violet region; and a processor for determining an opacity value proportional to the changing in intensity for each wavelength region is not found, taught or suggested in the prior art of record.

Claims 26, 27, 29, 31 and 32 are allowable over the prior art because determining the opacity value for an exhaust emission plume by directing a beam of substantially monochromatic radiation substantially through the spatial volume of an exhaust emission plume, wherein the beam of substantially monochromatic

electromagnetic radiation comprises a beam of substantially ultra-violet radiation, measuring a transmittance of the beam and calculating the opacity is not found, taught or suggested in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
